

Reach, **pop**, stomp, and chase the bubbles that blast in humongous clumps from the 14-foot solar powered Bubble Tower. This unique festival feature appeals to kids and adults of all ages. Half the fun is watching your guests **scramble** around popping bubbles and waiting in **gleeful anticipation** for the bubbles to fall!

No waiting in lines, no ticket entry, but unlimited hours of fun. The Bubble Tower allows sponsors to be featured at the event, and is visible from across your festival grounds. This quiet generator free tower provides fun for hours at a time.

“The Solar Powered Bubble Tower was an irreplaceable aspect of our Children’s Center and the Smart Energy Living EXPO. It kept the children entertained for hours and freed up our human resources for other activities.”

-Juanita McConkey, CO Energy Science Center

Features of the Bubble Tower

- The Bubble Tower is 14 feet tall, drawing attention from all corners of an event. If you are looking for the same fun in a smaller footprint, a mini-Bubble Tower may suit your needs.
- The Solar Powered Bubble Tower is completely run by the power of the sun making it easy to site on your event campus. (No generator needed or power cord needed!) Has battery back up for cloudy weather and nighttime operation.
- The four legs of the Bubble Tower sculpture can be dressed in one of many different themes/designs (including cow print, rainbow, and patriotic). Ask about custom leg fittings to celebrate your event theme or to highlight your sponsors’ logo or message.
- A professional “Bubble Tower Operator” is provided with each Bubble Tower rental to set-up, monitor, optimize the bubble performance, and be an attendant on-site at your event. Having a Bubble Tower Operator is a great asset, because there isn’t a need for volunteers. Worry free and turn key!
- Ask about upgrades that include a stilt walker workshop, Stretch the 9 Foot Clown, or our 18-foot tall Parade Puppets.

Logistics for the Bubble Tower

- The Bubble Tower takes approximately one hour to set-up
- Level ground is preferred and an area approximately 25' x 25'.
- Our home base is Denver, Colorado but we can travel up to 1,000 miles from Denver (additional rates may apply).

Sponsorship Opportunities

Use the Bubble Tower to enhance your marketing opportunity. Our sales staff can teach you how to cover the costs of the Bubble Tower with sponsor dollars. Past sponsors have been really excited about the benefits of this fun enhancement.

“The Bubble Tower brings the added flair and WOW experience to an event. As sponsors, The Bubble Tower brings the public to us – like a magnet, we don’t have to go searching for them....they are hypnotized.”

-Keisha Makonese, Bellco Credit Union
